Certificate IV in Work Health and Safety

Duration: 5 Days

Who should attend?

This Cert IV WHS program is suitable for people working in a Work Health and Safety (WHS) role who work to provide leadership and guidance to others and have some limited responsibility for the output of others. There are no pre-requisite requirements for this course.

Objectives

On successful completion of this training participants will be able to:

- Assist with workplace compliance with WHS laws
- Contribute to implementation and maintenance of WHS consultation and participation processes
- Contribute to WHS risk management
- Contribute to implementing WHS management systems
- Contribute to workplace incident response
- Analyse and present research information
- Assist with managing WHS compliance of contractors
- Write complex documents
- Ensure facility emergency prevention procedures, systems and processes are implemented
- Develop processes and procedures for controlling hazardous chemicals in the workplace

Program Units

There is extensive demand for WHS Practitioners in both the private and public sector. This Cert IV WHS program is suitable for people working in a Work Health and Safety (WHS) role who work to provide leadership and guidance to others and have some limited responsibility for the output of others.

This Certificate IV qualification complements Managers and workers who apply a broad knowledge base and well developed skills in a wide variety of contexts and may include, managers, supervisors, WHS coordinators, advisors and facilitators. We encourage participants to intergrate their learning with work based activities and to apply the new knowledge & skills in their own work environment.

Core		Elective	
BSBWHS412	Assist with workplace compliance with WHS laws	BSBRES411	Analyse and present research information
BSBWHS413	Contribute to implementation and maintenance of WHS consultation and participation processes	BSBWHS418	Assist with managing WHS compliance of contractors
BSBWHS414	Contribute to WHS risk management	BSBWRT411	Write complex documents
BSBWHS415	Contribute to implementing WHS management systems	PUAFER002	Ensure facility emergency prevention procedures, systems and processes are implemented
BSBWHS416	Contribute to workplace incident response	BSBWHS431	Develop processes and procedures for controlling hazardous chemicals in the workplace

All 10 units require the participant to complete an assessment questionnaire and specific assignments for the overall layout of the course. The course is available either as a group face to face or externally to individuals.

For external study the facilitator will undertake an initial interview with the participant. The external program is designed to be self-paced, and is mentored by experienced and certified safety professionals, who have practiced safety in the real world.

On successful completion of this course participants will be issued with a Statement of Attainment for nationally accredited modules.
